

# FOUL LUNCH

Try our delicious assortment of authentically Tasmanian flawed Government policies. All entrees are served with duplicity and a side of beans.

## **Mental Health Hotpot** ★☆☆☆☆

*We just throw whatever leftovers we have for the day into this signature dish. Currently 38% of people eat this. You'll have to love it because you'll have no choice.*

\$\$\$

## **Housing Crisis Sandwich** ★☆☆☆☆

*One of our signature dishes, this is a triple-decker sandwich of lack of supply, skyrocketing prices, and poor regulation. This is one of our most popular dishes. It is expensive but served with lots of cheese.*

\$\$\$

## **Pasta with Disability** ★☆☆☆☆

*A straightforward dish: don't expect much. We've asked the government to mandate universal design in new homes, but that flavour seems unpalatable. Currently one in four citizens is receiving this dish and we think you will too. It is served with long waits for allied health care, offering ample time to reflect on your choices.*

\$\$\$

## **Transport Salad** ★☆☆☆☆

*A new menu item that already has people lining up with gridlock throughout the CBD. This dish is light on greens but packs plenty of blue vegetables like slashings of bus services, light on light rail, and our favourite, eminent domain Dynnyrne. Try it, you'll like it!*

\$\$\$

## **Salmon ala King** ★☆☆☆☆

*In this delicious dish, the salmon industry pays no rates for their fish pen sites, they create dead zones on the sea floor where nothing can survive but jellyfish, their net-cleaning creates vast plumes of fouling organisms, they are farming in areas contaminated with heavy metals, and their hatcheries may be triggering neurotoxins in our drinking water associated with Parkinson's Disease and Motor Neurone Disease. Mmmm...*

\$\$\$

## **Forest Flambé** ★☆☆☆☆

*Comes to your table flaming, and has done since 1967. An abundant serve of unattractive stumps flows across the plate. The special sauce of this dish is in how pungently it screws the tourism industry. It is one of our most popular dishes, especially in the North.*
